

ZEYAD RASHAD TAHA AL-AMERI

Information Technology Graduate | Full-Stack Developer

Sana'a, Yemen | zeyadalameri77@gmail.com | +967 770 526 248
github.com/zeyadalameri | linkedin.com/in/zeyadalameri | zeyadalameri.github.io

Born 18 June 2002 in Ibb, Yemen | Yemeni nationality

PROFESSIONAL PROFILE

Information Technology graduate from Sana'a University (82/100, Very Good) and Full-Stack Developer with hands-on experience in web, mobile, automation, and information systems. Seeking postgraduate study in Computer Science to strengthen my foundations in software engineering, distributed systems, database systems, and applied computing.

EDUCATION

Bachelor of Science in Information Technology |

Sana'a University, Faculty of Computer & Information Technology

Oct 2021 – Jun 2025

Final average: 82/100 — Very Good | 138 credit hours

Graduation Project: Smart Shopping App — 94/100 (Excellent)

Selected academic results: Software Engineering 97; Graduation Project 94; Systems Administration & Maintenance 90; Probability & Statistics 87; Computer Networks 87; OOP 84; Parallel & Distributed Systems 84; Operating Systems 82.

PROFESSIONAL EXPERIENCE

Full-Stack Developer — New Smart Technology, Sana'a, Yemen | Jun 2025 – Present

- Develop and maintain the company's core system and other full-stack applications, implementing database changes, back-end logic, front-end updates, bug fixes, and day-to-day feature requests.
- Contributed to NOVA Marketplace using Next.js, React, TypeScript, Django REST Framework, React Native/Expo, PostgreSQL, and Docker, including inventory and sandbox payment/shipping workflows.
- Built and maintained SmartBook Telegram Integration features using Python, Flask, Telethon, REST APIs, authentication, logging, and monitoring.
- Developed and maintained School Management System modules for student records, attendance, grading, roles, fees, and administrative dashboards using Laravel and Filament.

Information Systems & Operations Supervisor — Mom Easy, Sana'a, Yemen | Sep 2022 – Jul 2024

- Worked part-time while completing the bachelor's degree, progressing from sales representative to distribution, payment collection, inventory, and information-system responsibilities.
- Managed operational data for inventory, invoicing, collections, and internal record keeping.
- Assumed responsibility for the company's accounting and information system and supported accurate day-to-day data use.

SELECTED PROJECTS

NOVA Marketplace — New Smart Technology | 2026

Next.js, React, TypeScript, Django REST Framework, React Native/Expo, PostgreSQL, Docker

Production-oriented multi-client e-commerce MVP with web and mobile clients, inventory workflows, JWT authentication, sandbox payment/shipping integrations, and optional AI-assisted inventory analysis.

github.com/zeyadalameri/nova-marketplace

Smart Shopping App — Graduation Project | 2025

Flutter, Dart, Firebase, REST APIs, Location Services

Flutter mobile client that uses location-aware REST API queries to help users discover nearby markets and browse offers. Final score: 94/100.

github.com/zeyadalameri/smart-shopping-flutter-app

School Management System — New Smart Technology | 2026

Laravel 9, Filament 2, PHP, MySQL, Tailwind CSS

School administration system for student enrolment, attendance, grading, teachers, classes, fees, payments, and role-based access.

github.com/zeyadalameri/school-management-system

SmartBook Telegram Integration — New Smart Technology | 2025

Python, Flask, Telethon, REST APIs

Python and Flask integration prototype for receiving Telegram messages, connecting selected workflows to an external SmartBook API, and monitoring activity through a local dashboard.

github.com/zeyadalameri/smartbook-telegram-system

Hotel Management System | 2023

C#, .NET Framework 4.7.2, Windows Forms, SQL Server

Academic desktop application for room management, customer records, employee records, check-in/out, and activity logging.

github.com/zeyadalameri/Hotel-Management

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, PHP, Dart, C#, C++, SQL

Back-End & APIs: Django REST Framework, Node.js, Express, Flask, Laravel, REST APIs, JWT

Front-End & Mobile: Next.js, React, React Native, Expo, Flutter, HTML5, CSS3, Bootstrap

Databases & Tools: PostgreSQL, MySQL, SQL Server, SQLite, Firebase, Git, GitHub, Docker, Docker Compose, Linux

Computer Science: OOP, Data Structures & Algorithms, Software Engineering, Databases, Operating Systems, Networks, Distributed Systems

LANGUAGES, CERTIFICATIONS & INTERESTS

Languages: Arabic — Native | English — Academic medium of instruction; certificate issued by Sana'a University

Professional Training: Diploma in Information Technology Management — Alison (online, 86%)

Academic interests: Computer Science, Software Engineering, Distributed Systems, Database Systems, Applied Computer Science, Web Engineering
